Message from our CEO

Creating achievements from challenges: this was the outcome in 2019 during the 39th year of the Missouri Coalition Against Domestic and Sexual Violence (MCADSV). Our leadership—through advocacy, education, alliance, research and public policy—fostered tangible achievements that furthered our mission to unite Missourians to end rape and abuse.

In meeting our challenges, MCADSV acts through our core values: that education advances understanding, that understanding furthers unity, and that the active expression of our unity results in the prevention of violence and abuse.

As the premier statewide educational organization on domestic and sexual violence, MCADSV continued in 2019 to lead advocates and allies with the tools to respond daily to meet the needs of survivors. We gained the successes detailed in this annual report by relying on our unity as a community: we built collaborative relationships with legislators, policy makers, and leaders in many circles of influence. As a result, the work to address rape and abuse in Missouri remains a shared goal that is ethical, encompassing and nonpartisan.

MCADSV has a 39-year history of changing laws and changing lives; a history of allies and advocates working together to create a better Missouri.

As we enter 2020—the milestone of beginning our 40th year—we stand on our solid foundations, with a focus on providing resources to change lives, and commit ourselves anew to a future free of rape and abuse. Please join me in celebrating our past success and join in the Missouri movement to ensure safety, security and opportunity for all.
