MCADV becomes MCADSV.

2006

2007

Laws passed represent the most comprehensive advancement of responses to sexual violence victims in 20 years.

2008

The Nature and Dynamics of Sexual Violence published, and standards for sexual assault services established.

2009

Began intensive technical assistance project to enhance Missouri sexual assault services.

2010

Statewide Sexual Violence Prevention Strategic Plan launched. First-time data collection census taken for sexual assault services.

2011

State funding secured for sexual assault evidence exams so victims don’t pay for exams.

2012

Advocacy and prevention work continued with Green Dot partnership. Release of Prevention as Social Change publication.

2013

Achieved revision of sexual assault laws, including adding unconsciousness or inability to consent as an element of rape.

2014

Obtained first-time state funding of $500,000 for sexual assault services.

2015

Orders of Protection for sexual assault victims created in Missouri laws.

2016

Convened the statewide Sexual Assault Response Project for improved system response.

PROBLEM SOLVING

MCADSV staff provided technical assistance more than 1,750 times in 2016. Most calls for assistance required staff expertise in child custody, confidentiality, funding sources, data collection, immigrant populations and Orders of Protection.

TRAINING

More than 1,600 people received in-person training by MCADSV staff at 87 trainings. We also added several online trainings, with 509 completed courses by the end of 2016.

SYSTEMS CHANGE

MCADSV continued to convene groups from throughout Missouri to develop and implement effective policies and practices. MCADSV convened meetings of governmental and private sector partners to review responses and procedures needed to support sexual assault survivors. MCADSV engaged in multi-disciplinary policy engagement and systems advocacy work to alleviate campus sexual assault and intern sexual harassment. We provided pivotal advocacy to have state rules written for the first time to guide the distribution of critical victim services funds.

PREVENTION

MCADSV’s work on the Intern Resource Project included the development of a web portal with resources on sexual harassment for student interns, employers, and campuses. MCADSV collaborated with Partners in Prevention, a consortium of colleges and universities in Missouri, to research Coalition sexual assault services data and campus sexual assault reports. This work informs universities of promising prevention practices and helps them develop consistent policies.

ENTERPRISE

The success of Coalition Manager, MCADSV’s innovative web-based operations and data management system, confirms our nationally recognized excellence in nonprofit business operations. This enterprise product was purchased by 13 state domestic and sexual violence coalitions, providing revenue that supports MCADSV’s advocacy work. Coalition Manager is a business partnership between MCADSV and Missouri-based software and web services company Element74. MCADSV continues as a respected leader in high functioning, efficient nonprofit operations to further the primary focus of state coalitions: creating the social and systems change to end domestic and sexual violence.

PUBLIC POLICY

Eighteen of MCADSV’s priority bills passed during the legislative session. MCADSV’s advocacy resulted in new laws that created more safety provisions for victims of stalking, domestic and sexual violence, including improved responses to abuse of elderly and disabled persons, new requirements for campus responses to rape and abuse, and allowing victims to remove themselves or their abusers from a family cell phone plan.

Our advocacy with the Department of Public Safety resulted in the release of an extra $9 million in Victims of Crime Act funds in 2016.

2016 marked MCADSV’s 10 year anniversary of expanding our mission and membership to address both sexual violence and domestic violence.

About MCADSV

The Missouri Coalition Against Domestic and Sexual Violence (MCADSV) empowers individuals with the tools and resources that change lives.

Since 1980, MCADSV has been the statewide leader of individuals and organizations working to end rape and abuse in Missouri. Today MCADSV’s mission remains focused on the work of “uniting Missourians with a common value that rape and abuse must end, and advances this through education, alliance, research and public policy.”

MCADSV provides opportunities to engage in and meaningfully address domestic and sexual violence issues at a statewide level. We provide a positive connection to the issue that makes people feel like they’re part of something substantial—they don’t have to confront, manage or struggle with violence alone.

We advocate to secure money for programs helping survivors, work to advance laws that protect Missourians, and ensure advocates are trained on evidence-based and data-driven practices.

MCADSV continues to be nationally and internationally recognized for our innovation in tackling the chronic questions and problems faced by domestic and sexual violence programs.
